Slice: DEMO-SLICE-B Classification: demo-illustrative

Stamp: Research Draft — Not for Construction · DEMO

Sanctionable today: unknown (status beside the stamp, not a stamp)

reason: DEMO — imaginary site representing no jurisdiction: no real source instruments exist and no restraint sweep has been performed, so sanctionability cannot be assessed and no sanctionable-today claim is supportable.

VERDICT — REQUEST vs CEILING vs PLACED

requested [fact.requested-du] ceiling [fact.density-ceiling]

placed [fact.placed-du] shortfall [fact.shortfall-du]

binding: Geometric fill of this reference layout under the cited setback, road, open-space, amenity, plot-dimension and row-length entries. (DEMO-B-SETBACK-PERIPHERY, DEMO-B-SETBACK-FRONT, DEMO-B-ROAD-WIDTH-PRIMARY, DEMO-B-ROAD-WIDTH-SECONDARY, DEMO-B-OPEN-SPACE-MIN, DEMO-B-AMENITY-SHARE-MIN, DEMO-B-UNIT-PLOT-FRONTAGE-MIN, DEMO-B-UNIT-PLOT-DEPTH-MIN, DEMO-B-ROW-LENGTH-MAX)

The client asked for 500 townhouses. Under the DEMO-SLICE-B entries, the density ceiling is 250 DU and 50 townhouses are placed in this reference layout (shortfall 450). The placed count is what this layout achieves; it is not a claimed legal capacity, because no completeness search over the permitted layout space was performed. All values are illustrative demo entries — this is not a statement about any real jurisdiction.

NOTES

DEMO: every value is illustrative and unverified; no real authority, document, or jurisdiction is represented.

Percent rules use gross site area as denominator, stated per entry; provided areas are measured from canonical geometry.

The requested unit count is client intent and is never copied into any result field.

Height and storey caps are cited envelope limits; v0 draws no elevations, and no drawing label exceeds them.
